

WASTE MANAGEMENT POLICY

As 3Teks Medical Textile;

- In our business, we protect the environment, prevent pollution of the environment, and attach importance to the protection of the environment by reducing our negative effects on the environment. We comply with legal regulations and try to reduce our environmental impact.
- In the production of products in accordance with the needs and expectations of our customers, we contribute to the protection of nature by choosing products that do not pollute the environment, minimize negative environmental impacts, and have "recycling" and "environmentally friendly" labels in the materials we buy. We try to create opportunities for reuse.
- Our order of priority in all our processes; to prevent, reduce, collect and collect waste at its source. We take care to effectively separate our wastes according to their source, groups and hazard classes.
- We are aware of not harming the environment / leaving a negative impact on the environment by taking the necessary precautions during the separate collection, temporary storage and transportation of wastes at their source.
- We know that the use of hazardous substances and chemicals only when needed and as much as necessary will reduce both the negative effects on the environment and the amount of waste.
- We try to use water, energy and all natural resources sparingly. We aim to educate our employees about the environment and increase their sensitivity.
- We store the wastes correctly, in separate areas according to their characteristics, deliver them to licensed/authorized companies without exceeding the legal storage time limits, send them to recycling facilities first, if not possible, send them to disposal facilities and keep all records.
- It is our primary responsibility to use products to the extent permitted by the recycled legislation in order to reduce the use of natural resources and energy.
- Setting achievable goals in this regard, renewing in line with the principle of continuous development and increasing waste management performance is our most basic duty in waste management.
